FLASH ASSESSMENT

TOWARDS INCREASED CORPORATE RESILIENCE

CRISIS MANAGEMENT & BUSINESS CONTINUITY IN TIMES OF
COVID-19

Corporate actors are going through unprecedented challenges since the first outbreaks of **COVID-19** hit Europe.

Every firm is handling the crisis with its own tools and according to its preparedness level. The objective: Maintain activities in degraded circumstances, learn from these times to strengthen corporate resilience.

We drive you through a **flash assessment** of the pandemic's impact backed by **guided feedback** and **action plan** to increase your **corporate resilience**.

WHY NOW?

We are facing a global pandemic crisis.

Firms have, progressively, found a way to cope and conduct activities despite the uncertainty laying ahead.

The momentum can be used to take a step back, reflect on how the crisis has been dealt with, and what can be done better, based on first lessons learnt.

Rethink your resilience approach and be fully comfortable while shaping your future strategies.

HOW?

Our guided feedback approach relies on 3 levels-interviews: executive management, manager level, operational staff.

What have been the strengths and weaknesses of your response?

Was your crisis management plan up-to-date? Do you have a business continuity plan? Do you plan to adapt your travel & meeting policy?

We analyze your crisis reaction scheme and put forward improvement options in line with market best practices.

We hand over to you a flash assessment report containing action plan and ways to strengthen your crisis management capacity.

WITH WHOM?

We are a team of security professionals working hand-in-hand with our Clients to shape their security and crisis management infrastructure.

We support you on corporate documentation, awareness raising and training.

The flash assessment is conducted by professionals originally from European Defense Forces, International Cooperation sectors. We are specialists in security management, business continuity and top-management coaching.

Delivery method:

Complimentary needs assessment call, 2 days interviews (on-site or virtual), 3 days report, 1 day final deliverable drafting, 1 day for final presentation. In two weeks' time, the FLASH ASSESSMENT can be closed and with the Client.

Pricing and details to be commonly determined.
